## **For the Seed Trade...**

It is a pleasure to offer for your consideration our 1946 Wholesale Flower Seed Catalog. This booklet contains a complete list of all items we are growing for 1946 Crop delivery.

During our twenty years as Growers of Flower Seed, we have always tried to make the Macdonald name synonymous with quality. For the past four years we have all operated under extremely difficult conditions—having to make the best of shortages in supplies and labor, and consequently it was not always possible to give undivided attention to the improvement of types and variety. During the War years it was necessary to concentrate all efforts upon the production of food crops, and our limited acreage of Flower Seed was a side line. Now that our soldier employees have nearly all returned from service we can again focus our efforts on both quantity and quality, and the improvement of strains and stock seed for future crops.

California now leads the World in Flower Seed production, and should continue in this capacity indefinitely, as our growing conditions are ideal for the production of high vitality seeds, and we can grow practically every sort. It is nice to see European firms again offering Flower Seeds in wholesale quantities to the American Seedsman, but it seems that these people unfortunately due to the critical food situation in these countries cannot devote much acreage to luxury crops at this time, and their production while competitive, will merely augment our own.

Our Trial and Breeding grounds will again occupy some twelve acres of land. Included in this acreage is a four acre piece devoted to Sweet Peas alone. Here all of our efforts are directed toward improved strains, through breeding and selection, and also the development of Novelties worthy of being pictured in your forthcoming catalogs.

We cordially invite all of our friends and customers in the Seed Trade to visit Santa Maria when you come to California, and we will be more than pleased to show you around our various plantings in the Santa Maria Valley and adjoining counties.

We are glad to have this opportunity to thank you our customers for your friendship and business during the past season, and we want you to know it is very much appreciated.

A handwritten signature in cursive script, appearing to read "W. Macdonald".

## **Terms and Conditions of Delivery...**

All seeds are offered F. O. B. Santa Maria, California, for delivery from 1946 crop as soon as possible after harvest. Invoices to firms of established credit are subject to a discount of 2% for cash in 30 days from invoice date, or 60 days net. New customers should furnish two credit references if shipment is desired on an open account basis. Otherwise delivery will be made C. O. D. All foreign invoices are payable in U. S. Dollars at the current rate of exchange. All overdue accounts are subject to a sight draft without further notice.

Definite shipping instructions should accompany each order placed, and will be carefully followed by our Shipping Department. In the event instructions are not received, shipments will be forwarded over the most direct and cheapest route — which in large lots would not necessarily be the quickest. Delivery to the common carrier in good condition will terminate our responsibility.

Prices quoted in this catalog apply against all 1946 crop purchases, and are effective immediately on all spot orders. We reserve the right to change these prices at anytime without giving further notice. We are Wholesale Growers and supply the Seed Trade only.

Bags and containers will be charged at net cost. We will be pleased to have you return any used cotton bags in good condition on a 50% discount basis. Kraft paper packets and cotton bags less than the one pound size will be supplied gratis. All orders for four ounces or more will be charged at the pound rate, less than four ounces at the ounce rate. This same billing scale will be used on items listed by the ounce, unless otherwise priced in our catalog.

We will plant sufficient land to produce the quantity of seed ordered under normal conditions; however, crop failure or any other cause beyond our control releases us from delivery and in the event of shortages, we will fill contract orders on a pro-rata basis only.

We give no warranty, express or implied, as to the productiveness of any seed we sell and will not be in any way responsible for the crop. Our liability in all instances, is limited to the purchase price of the seed. (Standard non-warranty clause of American Seed Trade Association.)

## EARLY FLOWERING SPENCER SWEET PEAS (HAC 6 FT.)

Our listing of Early Sweet Peas has been reduced this year to include only the most important Florist and Home Gardener Varieties. These are all exceptionally large flowered and long stemmed — many being beautifully duplexed — and can be had in almost any color desired. Sweet Peas have long been an important Macdonald specialty, with the result that a majority of the current market favorites originated in our Trial Ground. No better Sweet Peas are available anywhere — at any price!

**Susanna**, carmine red  
**Sweet Briar**, giant rose  
**Tops**, duplexed rose pink

## FIFTEEN BEST SUMMER SPENCER SWEET PEAS

The large number of Late Spencer Sweet Peas now being grown are indeed confusing to the average Seedsman. Many of these colors are older introductions and usually inferior to the newer sorts. We are glad to recommend the following varieties, which our trials have shown to be the best on the market. Refer to page 52 for complete classification.

**Bonny Briar**, rose pink  
**Capri**, light blue  
**Flagship**, navy blue  
**Flora**, deep lavender  
**Golden Dragon**, orange  
**Grand Slam**, scarlet cerise  
**Loch Lomond**, mahogany

**Maytime**, golden cerise  
**Patricia Unwin**, golden salmon  
**Rubicund**, crimson scarlet  
**Snow White**, white  
**Sweet Afton**, silver pink  
**Welcome**, scarlet  
**What Joy**, cream

**Windsor Blue**, mid-blue

**SWEET PEA (HAC 6 FT.)**  
**NEW AND STANDARD SPENCER VARIETIES**

This year we have tried to eliminate similar colors and old, inferior, varieties as much as possible in our Late Spencer Sweet Pea group. If we are not listing the particular variety you want, please refer to our color classification on page 52 and we feel sure you will find it in the proper color group. Excellent substitutes are available here. Our "fifteen best" colors are listed on page 9. These are all outstanding Spencer varieties.

**PANSY** (*Viola Tricolor Hortensis*) (HA 6 in.)

For the past four years, we have had under direct production in the Pacific-Northwest especially fine strains of all the better Pansies. Again this year we can offer you this same group of quality varieties, which are grown for us by a Pansy Specialist. We find the size and colorings of these Pansy varieties to be unequalled. Limited quantities of seed will be available in June—larger amounts shortly thereafter as the season advances.

## ZINNIAS

Our large plantings of this important and popular garden flower are now grown in an inner California Valley, approximately 100 miles east of Santa Maria, where the summer temperature averages better than 95 degrees. These are all grown on our own land, and under our direct supervision. Advantages so far apparent from this warmer climate are a heavier sample of seed and freedom from leaf spot disease.

## COLOR CLASSIFICATION

In addition to our regular four acre Sween Pea trial Ground, we recently conducted a series of color tests on every Sweet Pea variety that is offered for sale. An especially outstanding variety in each color group is indicated by two stars (★★). Those with one star (★) are highly recommended and will give fine results. All recommended varieties are vigorous growers, and will produce immense flowers on long stems.
